GREG DUCIE

DATA SCIENCE & AI | OPERATIONS | ORGANISATIONAL PERFORMANCE

Brisbane, Australia | +61 422 463 397 | greg.ducie@live.com

linkedin.com/in/gregducie | gregducie.github.io

PROFESSIONAL PROFILE

Experienced business and operational leader with extensive expertise in organisational performance, project management, risk, compliance and stakeholder engagement. This is complemented with Data Science, Machine Learning and AI capabilities to combine evidence-based analysis with practical organisational solutions. Focused on solving complex business problems, improving decision-making and delivering measurable operational value.

CORE CAPABILITIES

Data Science & Analytics: Python, NumPy, Pandas, data cleaning, machine learning, model evaluation; Artificial Neural Networks and Convolutional Neural Networks.

Leadership & Operations: Business management, operational improvement, organisational development and strategic change.

Stakeholders & Projects: Executive engagement, cross-functional collaboration, complex project delivery and client relationships.

Risk, Quality & Compliance: Risk assessment, regulatory compliance, safety management and ISO management systems.

SELECTED DATA SCIENCE PROJECTS

Grocery Delivery Optimization

- Created & applied a **Generic Algorithm in Python** to search out a near-optimal route across 10 addresses. This lead to estimated **savings of up to 50%** in both delivery time and fuel consumption over a route based upon transaction order alone. This approach could be utilized across many industries as a way to find more optimal solutions.

"You Are What You Eat" Customer Segmentation

- Used **k-means clustering** on grocery transaction data to split out customers into distinct "shopper types". These could be used to better understand customers over time, and to more accurately target customers with relevant content & promotions

PROFESSIONAL EXPERIENCE

SODEXO AUSTRALIA - Village Manager | 2024–2025 | Carmichael Coal Mine

- Managed integrated facilities and hospitality services for a mining camp serving up to 750 residents, plus client office facilities.
- Led eight direct reports and a team of 40 across multiple service functions.

NIOA PTY LTD - Director, Compliance & Assurance, Australia & NZ | 2023–2024

- Led quality, security, facilities, safety/environment and firearms training functions across five facilities; maintained ISO 9001, 45001 and 14001 certification.
